

## HADLEY<sup>®</sup> AIR HORNS

## The Sound of America

Hadley are one of the largest OEM suppliers of air horns in North America and their products can already be found in Australia and New Zealand on many trucks that have been directly fitted in the factory.

Powerdown officially distribute Hadley horns, lanyards and elbow kits as an aftermarket product range.

The Hadley air horns are manufactured from quality steel or aluminium and are finished off with chrome or an anodized finish. The following are a selection of horns and accessories that are already available from Powerdown.
